Tourism Manual

Take a direct flight to Vilnius

A Word of Welcome

Vilnius is truly a city unlike any other. Once experienced, its unique charm and beauty can never be forgotten. Countless people have fallen in love with it over the years, but no one can fully capture its magical essence in words, not even poets or guidebook writers.

The best way to get to know Vilnius is to stroll around it at leisure and experience it in all its sensual glory. Enjoy a coffee at any one of the numerous outdoor café tables and see how serene the locals look as they go about their daily lives. Dine out at one of the city's many excellent restaurants and marvel at the excellence and diversity of the culinary scene. Enjoy a night out on the town and revel in the goodwill and openness of Vilnius's fun-loving population.

Vilnius is a superb example of how history and modernity can harmoniously coexist. The Old Town and surrounding city centre are a perfectly preserved mosaic of historic architectural styles, while just across the peacefully flowing River Neris a sleek new skyline testifies to Vilnius's dynamic entrepreneurial spirit. Perhaps it's because of Lithuania's official status as the geographical centre of Europe,

but few European capitals are as at ease with themselves as Vilnius. It's a quintessentially European city which abounds with picturesque streets and spectacular churches. It teems with wonderful museums and art galleries. It pulsates with cutting-edge cultural events and nightlife. It has something for everyone, from old-fashioned romantics to discerning businessmen, from party-loving hedonists to high-minded culture buffs.

And if you manage to tear your gaze away from the abundance of beautiful buildings and beguiling shop window displays, you will also notice how the entire city is ringed by vast stretches of lush green foliage. Vilnius is a delightfully green city that boasts many beautiful parks and countless quaint, tree-lined streets. It's quite simply the perfect city for a meandering walk or a leisurely bike ride. Vilnius has a proud historical heritage which is there for ever-growing numbers of visitors to enjoy. The Vilnius Tourism Manual 2011 contains everything you need to know to make your stay as pleasurable, convenient and safe as possible. You may find it difficult to put Vilnius into words, but that's love for you.

We have tried to make the Vilnius Tourism Manual as comprehensive as possible but if you can not find the information you are looking for, please contact:

Vilnius is a UNESCO World Heritage Site, and it's not hard to see why with so many wonderful historic sights. The city's extraordinary appearance of historic continuity is all the more amazing when you consider its turbulent history. But Vilnius is now back where it rightly belongs – at the heart of Europe – and this most quintessentially European of cities has quickly gained a reputation as being a most charming, delightful and – it has to be said – magical place. Come and see for yourself!

Southern architecture under the Northern Sky

Czesław Miłosz, the Noble Prize-winning Polish author, once said of Vilnius: “Narrow cobblestone streets and an orgy of Baroque: almost like a Jesuit city somewhere in the middle of Latin America.”

Vilnius is unique for being both the northernmost Baroque city in the world and for having one of the largest historic centres in Eastern Europe. It was rightfully declared a UNESCO World Heritage Site in 1994 which enabled a much-needed programme of renovation to take place so that the city could be fully restored to its former glory.

It is little wonder that Vilnius has become such a popular tourist destination in recent years for the simple reason that few people can resist its magical charms. Large enough to explore for weeks on end, but small enough not to get permanently lost in, Vilnius is an architectural dream come true, a city soaked in atmosphere, and alive with history. Vilnius’s skyline is an elegant timeline of gables and spires, domes and belfries. Its mazy cobblestone streets and alleyways contain countless hidden, picturesque courtyards whose residents surely count their blessings every day as they gaze out of their windows. But despite its reputation as a Baroque city, Vilnius is rich in other architectural forms. There are some stunning examples of classicism, eclecticism, brick gothic and art nouveau in the city centre, especially along the showcase Gedimino Avenue. The city abounds with quirky architectural flourishes, from mysterious masks to mischievous gargoyles. Quite simply, you just can’t take your eyes off the place!

Most of the buildings in Vilnius date from the periods immediately after the great fires of 1610, 1737, 1748 and 1749, when the city’s wooden buildings were done away with. Amazingly, however, the Old Town’s street structure is virtually unchanged since medieval times.

The best way to see Vilnius is on foot (just follow the cobblestone road). But the city is

also a dream for cyclists with clearly-marked cycle lanes covering virtually the entire city centre, and bringing all the city’s sights within easy reach.

There is, of course, much more to Vilnius than the Old Town. The city centre is filled with beautiful parks, and majestic buildings standing proudly atop steep, hilly streets. It’s also a delight to walk along the banks of the river Neris as it serenely snakes its way through the city centre. The riverside path offers spectacular views of the Old Town on one side, and the imposing skyscrapers of the New District on the other.

No visit to Vilnius is complete without a visit to the self-declared Republic of Užupis, just across the sparkling river Vilnia, and behind the spectacular red Gothic façade of St. Anne’s Church. Just be sure not to miss the prominently displayed constitution (it’s in Lithuanian, French and English) which states, among other things, that: “Every dog has the right to be a dog.”

Other places of special interest include Vilnius University, the Hill of Three Crosses, the Gates of Dawn, the Presidential Palace, the Town Hall, Ponar Memorial, Kalvarijų market, not to mention countless other museums, galleries, churches and statues. Just one thing is certain when it comes to Vilnius: one visit is never enough.

Old Town and New City

Years ago

7th – 2nd century BC – The first Baltic tribes establish themselves on the territory of present-day Lithuania.

1009 – Lithuania is first mentioned in a written text when the Kvedlinburgh Chronicle states that Archbishop Brunonus was hit over the head by pagans in Lituae and went to heaven.

1236 – Duke Mindaugas unites local chieftains to defeat the Livonian knights at the Battle of Saulė, thereby establishing the state of Lithuania.

1253 – Duke Mindaugas is crowned Lithuania's first king on July 6. This day is now cel-

ebrated as the Day of Lithuanian Statehood.

1323 – Vilnius is first mentioned as the capital of Lithuania when Grand Duke Gediminas officially invites Western European merchants and craftsmen to settle in the city.

1387 – An alliance between Lithuania and Poland is formed after Grand Duke Jogaila marries Polish Princess Jadwiga. Vilnius is granted municipal rights. Lithuania is the last pagan state to convert to Christianity.

1410 – The Lithuanian army, led by cousins King Jogaila and Grand Duke Vytautas, achieve a resounding victory against the Teutonic knights in the historic battle of Grünwald (also known as Tannenberg and Žalgiris).

1495 – The first goldsmith and sewing craft guilds are established. Vilnius flourishes as a major Eastern European trading and cultural centre.

And now

Vilnius is a fascinating mix of tradition and innovation. Its entire Old Town is a UNESCO World Heritage site thanks to the city’s abundance of beautifully preserved historic architecture. But Vilnius is also a place of elegant skyscrapers, state-of-the-art business centres and gleaming new sports and entertainment complexes.

Few European capitals enjoy such harmony. While the Old Town is an elegant cityscape of red russet-tiled rooftops and baroque spires, the business district just across the river Neris boasts the most impressive ensemble of modern architecture in the Baltic States.

The Lithuanian capital is a cosmopolitan place where one can hear Lithuanian,

Russian, Polish, English and many other European languages on the street and in bars and restaurants. Yet, as with its architecture, Vilnius enjoys an amazing degree of harmony in both its cultural and social life.

Thanks to the city's history, the people of Vilnius have inherited a tolerant and laidback attitude. They like a good time, which is why the Old Town is always alive with the sound of music, laughter and animated conversation.

It's this harmonious combination of old and new, tradition and modernity, which makes Vilnius such a remarkable place.

Vilnius feels like a small town because its streets are so beautifully spread out, but it is also a modern metropolis. The main shopping and business districts offer free Wi-Fi access so don't be surprised to see someone checking their email in the shadow of a 17th-century building. A Lithuanian taxi company was the first in Europe to install multimedia consoles in its cars, so you can even surf the web on your way from the airport to the hotel. As you see, Vilnius comes with all possible mod cons.

There is no shortage of things to do in Vilnius. From massive shopping centres to charming little boutiques, there is something for even the most insatiable shopoholic. As for the more culturally-minded, there is an enormous array of wonderful art galleries and fascinating specialty museums. Concerts are also hugely popular with music-loving Lithuanians, from big-name pop acts, to top-quality classic performances, to charming folk music recitals, to jovial jazz jams.

Vilnius' nightlife is renowned for its heady blend of relaxed pubs, trendy bars and high-energy night clubs. If sports is more your thing, however, you could take a jet flight, go canoeing or even take a hot air balloon ride over the city.

From exploring the hidden courtyards of the Old Town, to dining in one of the city's numerous top-class restaurants, your only problem will be how to fit so much into your time.

Did you know that...?

...Airplanes have been known to zoom under bridges in Vilnius. The world-famous pilot Jurgis Kairys made history when he flew upside down under a bridge. On another occasion, he audaciously flew under 10 bridges in a row.

...The French National Institute of Geography has established that the geographical centre of Europe is 24km from Vilnius. The European Park of Sculptures (19km from Vilnius) is filled with interesting sculptures by a range of international artists reflecting on the area's special significance.

...A monument to the famous American singer, guitarist and composer Frank Zappa was erected in 1995 – the first one in the world. Many a devoted Zappa fan has visited Vilnius solely for this reason. A copy of the monument was given as a present to Zappa's hometown of Baltimore.

...During the Soviet occupation people were tortured in the underground chambers of the KGB's headquarters. Former inmates now act as guides and take visitors on a moving and unforgettable tour to reveal a tragic part of Vilnius' history.

...Standing 165 metres tall, the TV Tower has the highest restaurant in Vilnius. Enjoy the amazing panoramic views over a nice lunch or dinner. Or try a bungee jump from the dizzy height of 280 metres. The TV Tower is lit up for New Year's Eve, making it one of the tallest "Christmas trees" in Europe.

...Užupis, sometimes known as the Montmartre of Vilnius, is one of the oldest and most authentic parts of the city.

...Vilnius University, the oldest university in Eastern Europe, was founded in 1579 and has served as a centre of academic excellence ever since.

Dreaming of Spires

A hundred years ago it was said that no matter where you looked in Vilnius, you could always see at least four churches. Thankfully, things haven't changed.

The skyline is a breathtaking spectrum of spires, domes and crosses and no trip to Vilnius would be complete without a visit to some of the city's many extraordinary churches.

The most famous church is the centrally located Cathedral Basilica. Originally built on the site of a pagan temple in the 13th century, the structure dates in its current form to the late 18th century and is a stunning example of classical architecture.

St. Anne's, which dates back to the 16th century, is one of Vilnius' best-loved churches. It's a superb example of Gothic architecture which used thirty three different types of brick in its construction. According to legend, Napoleon Bonaparte was so smitten by the beauty of the building that he vowed to take

it to Paris in the palm of his hand.

The most spectacular church interior, however, surely belongs to Sts. Peter and Paul. Supposedly built on the site of Milda, the Lithuanian pagan goddess of love, the church was commissioned by Michael Casimir Pac, Grand Hetman of the Lithuanian army, in 1668. The stunning vaulted ceiling and dome teems with some 2,000 beautifully crafted stucco figures representing great mythological, biblical and battle scenes.

Of course, not all places of worship of Catholic, or Gothic, Baroque or classical in style. There is the synagogue on Pylimo St. the Evangelical Lutheran Church in the Old Town, as well as a host of beautiful Russian Orthodox churches, the most impressive of which is St. Michael. This jewel of a church combines Baroque, Gothic and Byzantine influences to spectacular effect. For those who love churches and church architecture, Vilnius is a treasure trove of delights.

Vilnius is easy to get to, however you decide to travel there. The small but cosy Vilnius International Airport is situated a mere 7km from the city centre. The port city of Klaipeda is well-served by ferry, and has excellent rail and bus connections with Vilnius. Distances between places are generally small in Lithuania, and it is relatively quick and straightforward to travel around by car, especially between major towns and cities. The roads in Lithuania are the best in the Baltic States and are all toll-free. Vilnius is also a very convenient city to get around thanks in part to its highly-developed public transport system. Most of the main attractions are concentrated in the city centre and are within close proximity of nearly all the major hotels.

3.7 Guiding regulations

It mandates that only persons, who have special licenses given by the Lithuanian State Department of Tourism under the Ministry of Economy of the Republic of Lithuania, have the right to work as guides.

Professional and qualified multi-language guides can be hired at most of the incoming tour operators (see 3.1), excursion operators (3.2) or Vilnius Tourist Information Centre (pg. 7).

4.2 City zones

0. Outside Vilnius

The territory outside the city; not marked on the scheme.

1. Old Town

The very heart of the city. Pedestrian streets, antique shops, many restaurants and hotels are situated here. Accommodation options vary from the cheapest students' style lodgings to the best rated international chain hotels. This zone also includes Užupis, known as Vilnius Monmartre.

2. Upper midtown

This area is spread out over both sides of the river Neris and is bordered by two major business areas. Gedimino prospektas is a prestigious retail street and the skyscrapers of Konstitucijos prospektas form the new heart of the city's business district.

3. Lower midtown

Previously a residential area, the Lower Midtown includes a business district, residential flats and Vingis Park, a popular place with morning joggers and venue for all sorts of major concerts.

4. Žvėrynas

This attractive residential area is shaped like a triangle and is well-known for its

tranquil atmosphere and attractive houses. This prestigious district has several hotels and family-run guest houses.

5. Station district

After the renovation of the central station, this area has changed dramatically and some excellent hotels now operate in the vicinity. It's conveniently close to both the main train and bus stations.

6. Airport

This is a good option for those only visiting Vilnius very briefly. The surroundings are pleasant, the city centre close by and there are several good hotels and restaurants.

7. Antakalnis

This suburb is relatively close to the city centre and is surrounded by forests and the river Neris but it only has a few accommodation options.

8. Residential area

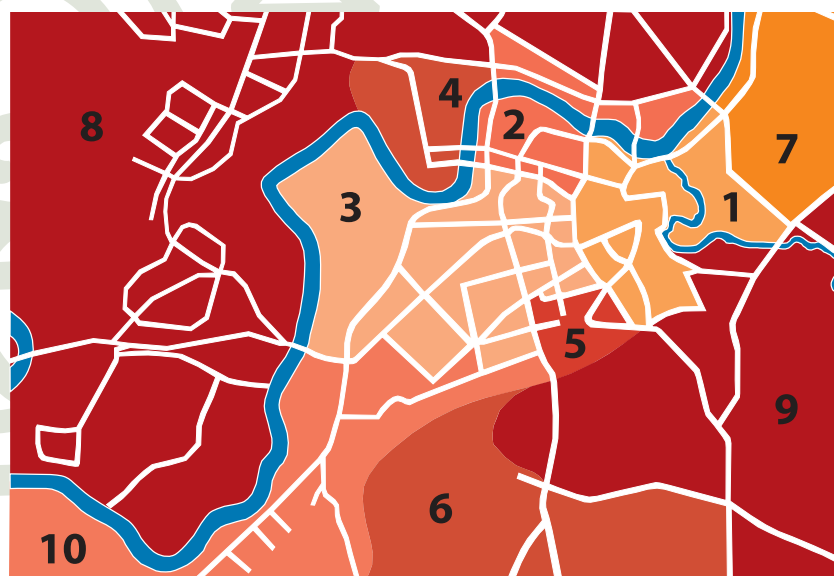

Built during the Soviet era and filled with characteristic block architecture, this vast suburban area nonetheless boasts several hotels ranging from economy to high end.

9. Rasos and Naujininkai

This area mainly consists of large apartment blocks and industrial premises. There are some small new hotels and decent restaurants in the vicinity.

10. Industrial district

There is one hotel, a few cafes and private rooms for rent in this somewhat out-of-the-way location.

4.3 Vilnius hotels at a glance

Art and culture has always been an integral part of life in Vilnius. When the Grand Duke Gediminas invited merchants, artisans and Jews and Christians alike to settle in Vilnius in 1323, he laid the foundations for the city's multi-ethnic diversity, spirit of tolerance and open-mindedness. Ever since then the arts have constantly flourished and the city has a proud tradition of artistic excellence. Vilnius boasts numerous museums and galleries. Its theatres are world-famous, while its musicians and orchestras are also internationally distinguished. Not a day goes by in Vilnius without some major festival, cultural event or concert taking place.

The park was established in 1991 with the aim of embellishing the geographical centre of Europe with works of art. The park covers an area of 55 hectares and contains more than 100 sculptures by artists from more than 70 countries. Among them are works by famous contemporary artists such as S. LeWitt, M. Abakanowicz and D. Oppenheim. Each year new sculptures are installed in the park by artists from a range of backgrounds. The park is an immensely popular place for a cultural pilgrimage and attracts over 60,000 visitors a year.

6.6.3 Trakai

Trakai is a small town in southeast Lithuania which is situated 27km from Vilnius. It is built on a narrow peninsula dividing lakes Galvė, Lake Totoriškiiai and Luka. These lakes form part of an interconnected group which consists of at least 30 large and small lakes. Trakai itself is a genuinely archaic town on water. It's also a beautiful place for leisure and relaxation. During the 13th century Trakai and its neighbouring environs was the administrative centre of the country. According to the chronicles, Duke Gediminas decided to build a castle there after a successful hunt and the capital was moved from Kernavė. The town was first mentioned in a German text in 1377. Settlements quickly began to develop around

the newly built castle and by the time Vytautas the Great became the ruler of the Grand Duchy of Lithuania, Trakai was established as the country's political and administrative centre and soon after that it gained its town rights.

Trakai Castle was built in the 14th century and is the only castle island in all of Eastern Europe. The castle contains a historically-themed museum and regularly hosts concerts and theatre festivals. Trakai is also of special interest because 30 Karaim families live there. The families represent a Turkish ethnic group whose ancestors were invited to Lithuania by Vytautas, the Grand Duke of Lithuania in the 14th century. The Karaims guarded the castle of the Grand Duke and were also the personal bodyguards of Vytautas himself. Their small community has preserved their religion, culture and customs right up to the present day.

The Church of the Visitation of the Virgin Mary

Sodų g. 8, LT-21106 Trakai
This parish church was built in 1409 under the rule of Vytautas the Great. The main altar of the church contains an image of the Virgin Mary and is said to have been a place of miracles. There has been a festival dedicated to the Virgin Mary ever since 1603 which is attended by huge crowds of people who come from all around the country.

Karaims' Settlement

Karaimų g. 22, Trakai
Tel +370 528 55286
One of the most famous sights in Trakai is Karaimų st. because its old buildings bear witness to the extraordinary history of the aforementioned Karaims. The Karaims built their houses with three windows facing the street, each one of which served a specific purpose: one was for Duke Vytautas, one was for God and one was for the Karaim himself.

Kernavė – UNESCO World Heritage Sight

Kernavė, which is situated close to Vilnius, was the first capital of Lithuania. The first settlement in the area appeared as early as 9000B.C when it is believed the settlers came to the river Nėris from what is now Kaunas in the southwest. Hunters, gatherers and fisherman gathered in temporary encampments along the river. The museum shows the history of Kernavė from prehistoric times through to the 18th century. There is a chronological display of historic artefacts from the Stone Age, the Iron Age and the early Middle Ages, as well as a map of the archaeological reservation and photos of archaeological digs, among many other interesting items. Every year on July 6 (the anniversary of the coronation of King Mindaugas) the Kernavė Cultural Reserve hosts an international festival of archaeology.

Stone sculpture park "Vilnoja"

Zdziechovskio g. 27, Sudervė, Vilniaus raj.
E-mail: info@stoneart.lt
Website: www.stoneart.lt

The Stone Sculpture Park in the grounds of the hotel Vilnoja was established in 2001 when eight famous Lithuanian sculptors joined together and created the first strikingly original works. Lithuania has an outstanding tradition of sculpture which is amply demonstrated by these humorous, mysterious and thought-provoking pieces of art. International stone sculpture symposiums take place in the park every summer, while a photo gallery of the sculptures is available on the park's website.

Statues of Lenin, Stalin and Dzerzhinsky once stood proudly in town hall squares, parks and in front of train stations throughout Lithuania. Now these tired old sculptures have a new home in Grūtas Park, along with numerous Soviet soldiers, kolkhozniks and other members of the proletariat. Their picturesque forest home is near the Lithuanian spa resort of Druskininkai and is surely the most impressive ensemble of Soviet sculpture in the world. It's a fascinating experience and valuable historic record of how the Soviet authorities used sculpture as propaganda.

6.6.7 Rumšiškės

The village of Rumšiškės is situated 13km east of Kaunas on the right side of the river Nemunas. The fortress mounds and barrow graves indicate that the site was inhabited in ancient times. Numerous bronze artefacts dating from the 13th – 16th century were discovered in the barrow graves during excavations carried out between 1953 and 1963.

7.7 Nature parks

For the active, nature-loving traveller, in the outskirts of Vilnius or within some 100 km radius, there are a few naturally charming places to visit and explore: some for walking or biking, others for history and the mystical air of the past. Round off your journey relaxing with a glass of beer amid hilly forests, green valleys and lakes, listening to the birds and rivers.

For "how to get there" info (directions, transport, working hours and fees), contact the Vilnius Tourist Information Centres. Some parks are situated in the city and are beloved by morning joggers or afternoon walkers. These are Sereikiškių Park, Vingio Park and Kalnų Park.

7.7.1 Pavilniai and Verkiai Regional Parks

Žaliųjų ežerų g. 53, LT-08406 Vilnius
Tel +370 5 272 9834, Fax +370 5 272 9835
E-mail: parkas@botanika.lt
Website: www.pavilniai-verkiai.lt
(Ask for bicycle trips and walking tours)

Pavilniai Regional Park

Purpose of the park is to preserve heritage of both nature and culture. One of the most important peculiarities of the park is the quite large differences of relative heights (up to 100 m) and the incomparable variety of their forms. The most attractive feature of Pavilniai Park is surroundings of Pūčkoriai. The unique geological site – the Pūčkoriai rock exposure – is located here. This is one of the highest and most impressive rock exposures from the glacial Čpoque not only in the Vilnia river valley but also in the entire Lithuania. The rock exposures measure approximately 65 m in height, and 260 m in width. One can enjoy the panorama of Vilnia valley from the top of the rock. New pedestrian path leads to the remains of Pūčkoriai cannon foundry and a water mill complex, where the complex of restaurants and cafes Belmontas is located.

Another part of the park – the Markučiai reserve – presents cultural and natural values. There you will find a wooden house, the former dwelling house of the estate, now hosting the museum of Alexander Pushkin, also a park with ponds, a family graveyard and a Barbora chapel. Park's hills covered with old oaks forest render its originality, whereas two ponds add liveliness.

Look for the Entertainment and recreation centre Belmontas (restaurants, guest rooms, swimming pool, sauna, and gala room, open from 12 a.m. till 12 p.m.), Belmonto g. 17, mob +370 615 20 220, www.belmontas.lt.

Verkiai Regional Park

Verkiai Regional Park consists of two quite different parts of the landscape: the southern, where the values of cultural heritage dominate, and the northern, where the values of the natural landscape are the most important. The most valuable combinations of the natural landscape are the system of

long, deep ravines of the Green lakes and the valley of the unique two-way Riešė-Turniškės rivulet which flows in the old dry valley. The most important values of the cultural heritage of Verkiai regional park are the unique complex of Verkiai palace and the Vilnius Kalvarijos (Stations of the Cross). Architectural complex of Verkiai palace which is properly fit into the natural environment with a nice park and the system of ponds is one of the most valuable classicist complexes in Lithuania. The park of Verkiai estate farmstead is one of the most beautiful landscape-type parks in the country.

The complex of Kalvarijos-Trinapolis sacral objects came into being in the 17th century. Vilnius Kalvarijos consist of 35 station: 19 brick chapels, 7 wooden gates, 1 brick gate, a wooden bridge – the chapel on the Cedronas (Baltupys) river and the Church of the Invention of the Cross (Kalvarijų). During the soviet time the object was destroyed and now restored again.

Look for the restaurant "Vandens Malūnas" (please look at 5.1.2 on page 42)

7.7.2 Neris Regional Park

Vilniaus g. 3, Dūkštos, Vilniaus raj.
LT-14222 Vilnius
Tel +370 5 259 9234, Fax +370 5 259 9232
E-mail: neris_rp@centras.lt
Website: www.nerisparkas.lt

The Neris Regional Park is, first of all, the Neris with its picturesque vicinities, tiny villages and historical layers of old Lithuania. The Park has been established in the most beautiful segment of the Neris in order to preserve the expressive landscape of the river valley, the distinctive flora and fauna, the unique system of the Neris midland turns and natural tributaries as well as the cultural heritage. The Neris Regional Park is situated in the triangle of Vilnius-Trakai-Kernavė, which is very attractive to tourists and connected by good country roads. The exceptional position of the Park determines the abundance of the objects of cultural heritage. Along the banks of the river, the high mounds, saint grove hills, centennial oaks, old settlements and the abundance of barrows reveal our ancestors' times, the pattern of their lives, customs and beliefs. In the period of the establishment of the Lithuanian State, these territories were a centre of the unified Lithuanian lands and a core of the establishing Lithuanian State. The whole territory of the park, more than 10 000 ha, according to aesthetic, scientific, recreational or economic value, is divided into separate zones.

Some interesting facts:

- From the capital city of Vilnius to the park it is only 25 km, to Kernavė – 9 km, to Trakai – 24 km;
- In Karmazinai barrow yard, there are the only 3 hand-made barrows in Lithuania, which were restored after archaeological excavations;
- There is the longest cognitive path for the disabled in Lithuania (2.3 km);
- The Dūkšta stream is the only in Lithuania, which, according to the speed of its

water fall in spring, is similar to a mountain river;

- In this area, a tradition of palm weaving was born;
- It is the only regional park, in which even 14 out of 15 species of bats living in Lithuania are registered.

7.7.3 Vilnius beaches

There are many natural beaches in Vilnius. Valakupių plažas (on the bank of the Neris River), or beaches at Žalieji Ežerai (Green Lakes), and Šilo and Tapeliai lakes are the most popular. Contact the Vilnius Tourist Information Centres for "how to get there" info.
